

ACCOUNT OWNER HIGHLIGHT

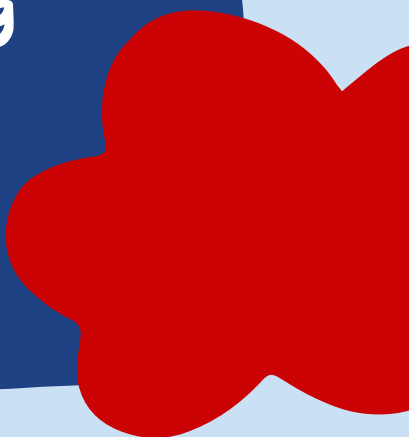

Meet Kyle! Kyle is 31 years old and has been an IAble account owner for almost three years. He enjoys music, movies, dancing and traveling. Keep reading to learn about Kyle's experience with IAble.

Are you using your IAble account to save for something special?

"My goal is to save for my future independence with respect to living arrangements. I want to have enough saved to make my own decision about whether or not I want a roommate, where I want to live and maybe purchase my own place."

Why did you choose to open an IAble account?

"To be able to save more money outside the typical limits placed on Medicaid/SSI/SSDI recipients."

How was the process of opening your IAble account?

"It was a fairly long process but we wanted every question answered. The IAble resource center was very helpful through the entire process. Always polite. They also helped answer questions regarding how my dad and others can make contributions as gifts."

What impact has IAble had on your life?

"It gives me hope that I will be able to live how and where I choose. It is my hope to someday be financially independent. Isn't that everyone's life goal? Disabled people are no different. IAble is helping make that hope a reality."
